

The Splash

Little River Park Pirate Theme Splashpad

2017 was another successful year as we completed many new projects for cities such as Antlers, Lawton, Drumright, Moore, Ponca City, Checotah and Claremore. The City of Moore opened their third and the largest Splashpad in Oklahoma. The 10,000 sq ft Splashpad at Little River Park features a custom Pirate Theme Play Structure with slides, big dumping bucket, sea creatures, pirate cannons and much more. It's not too late to start planning for next years projects. With more than 170 completed projects, Power Play can assist you with your Splashpad project. We hope you enjoy the holidays and we look forward to another great year in 2018!

City of Lawton Opens New Splashpad

The City of Lawton held the grand opening for the highly anticipated Splashpad at Elmer Thomas Park on July 8. The event included remarks from community leaders, a dedication and a ribbon-cutting ceremony. The 6,000 sq ft Splashpad includes more than 25 different water features, play areas tailored for toddlers, families and high energy play, and six shaded seating areas for families to enjoy. Splashpad design by Power Play. Splashpad equipment manufactured by Vortex Aquatic Structures. Construction by RJR Enterprises.

Shangri-La Resort adds a Vortex Elevation™

Shangri-La Resort on Grand Lake recently completed major upgrades to their facility including an impressive pool renovation designed by Planning Design Group. A colorful Vortex Elevation™ play structure was installed next to the pool adding a different water experience for kids. The Elevation includes two water slides, several water features including a dumping bell and a large dumping bucket. Surrounding the Elevation are multiple ground sprays providing something for all ages.

What's New

Explora Play by Vortex

This new product line encourages kids to discover how water reacts through moving, pushing, Pulling and spinning play activities.

Claremore opens second Splashpad at Claremore Lake

The City of Claremore opened its second Splashpad this past summer at Claremore Lake. The Splashpad, designed by LandPlan Consultants, Inc. (Tulsa, OK) has a nature theme perfect for the lake environment. The design includes a combination of polished stainless steel and power coated stainless steel water features. One really great aspect of the design was utilizing three toddler height fish together so kids can interact with each other. Power Play provided Splashpad equipment and handles all customer service. Construction by Benchmark Enterprises, LLC.

Antlers Splashpad Designed for Phased Approach

The City of Antlers new Splashpad design includes a nature theme with flowers and a cute snail that kids love to rotate. Another unique concept is the SafeSwap Orange Ground Sprays. This unique technology allows the City the ability to later convert the ground sprays to above ground features. The phased approach is a great concept for smaller budgets.

City of Drumright has a New Spot to Cool Down

With help from the Drumright Housing Authority, the City of Drumright opened their first Splashpad at Whitlock Park. The colorful park includes popular Vortex features such as Loop water cannons, a Sunspray, a misting Rainbow, and a Bucket Trio. Ombrellos with Seeflow cast beautiful shadows on the concrete and several ground sprays fill the park. This Splashpad incorporates water features for all ages.

Ponca City Opens Fourth Splashpad at Young Park

We have enjoyed working with The City of Ponca City for many years. Young Park Splashpad, the City's fourth Vortex Splashpad includes 3 refreshing Spray Loops, dumping Bucket Trio, many ground sprays and the interactive Bloom flower and Sunspray. The City's fifth Splashpad at Attucks Park is currently under construction.

Vortex International Debuts New Explora Splashpad® Collection

Explora is designed to help kids engage more deeply in the process of discovery.

Vortex Aquatic Structures International announced the Explora Splashpad® Collection, which encourages children to move, reach, touch, push, tap, spin, run, feel, and get surprised. Vortex saw an opportunity to further develop an active play component in their products. Explora keeps children moving, pushing, pulling, spinning and exploring. Designed for toddlers through tweens, Explora encourage kids to engage more deeply in the wonderful process of discovery, learning that one action with Explora will cause a reaction.

Featuring unusual shapes, vibrant colors, and surprising interactivity, the Explora Collection transforms public spaces as well as aquatic centers and venues ranging from amusement and water parks to hotels and resorts. Explora can be the centerpiece of a new Splashpad®, and can complement and enhance any other featured Vortex products and also can be integrated into refurbished or expanded installations.

Explora Orbs and Mega Orbs bring a new level of interaction to every play feature and provide a captivating and tactile play environment while promoting learning of cause and effect. TwistNozzles™ allow kids to aim and control the water jets' direction, which is fun while developing fine motor skills.
