Sept. 16 - 19, 2018

Branson, Missouri

Another successful and busy summer for Power Play in 2018. In August, Little River Park Splashpad in Moore, Oklahoma was selected as a 2018 Dream Design Award Winner by *Aquatics International*. We also completed a second Splashpad for Lee's Summit, MO which includes a 16ft Scorpion. For the past couple of years, we have been offering Splashpad Tours. This is a great way to see multiple completed projects and compare sizes, equipment and themes. With more than 200 completed projects, Power Play can assist you with your Splashpad project.

O'Brien Park Renovations Include New Splashpad

Tulsa County recently completed updates at the O'Brien Park Recreation Center which included the addition of a new Splashpad. The unique design includes a seat wall and turf berms in addition to the polished stainless steel water features. The nature themed Splashpad includes Flowers, Aqualiens, two Loop Cannons, multiple ground sprays and wall sprays which are a kid favorite. Surrounding the Splashpad are benches, shades, and artificial turf for families to sit and watch kids play in the water.

Little River Wins 2018 Dream Design Award from *Aquatics International*

Power Play is excited to announce that Little River Park Splashpad for the City of Moore, Oklahoma has been selected as a 2018 Dream Design Award Winner from *Aquatics International*. This project is the only stand alone Splashpad to win an award this year. This is the 7th Dream Design award for Power Play.

Check out the 16ft Scorpion at North Lea McKeighan

The City of Lee's Summit opened up their second Splashpad this summer at North Lea McKeighan Park. The focal point of the Splashpad is a 16 foot Scorpion complemented by other nature features in a cool color scheme. A Cattail Twirl, Snail, dumping Flower, twirling Bloom, spraying Flower, and many ground sprays provide something for all ages. Benches, picnic tables, and shades surround the Splashpad for families to relax while their little ones have fun!

New Explora Collection Becomes a Huge Hit for Summer

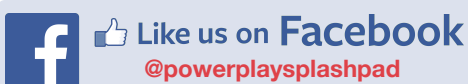

Power Play incorporated the new Explora Collection into three completed projects this summer. The new Explora Collection won two International Design Awards for 2018 and has quickly become a favorite. The innovative design helps kids engage more deeply in the process of discovery and encourages them to move, reach, touch, push, tap, spin, run, and feel.

Out of this World Space Theme!

This Park inspires many stories with its unique Space / Rocket Ship theme featuring many colorful and dynamic water features. The focal point being a 15 foot tall custom USA Rocket Ship with surrounding features including Aqualiens, Orbit Rings, Twin Space Cannons and a Bucket Trio with Custom Alien graphics. Integral color in the concrete represent planets while the moon is a lounging area with artificial turf.
